DETAILED ACTION

Election/Restrictions

- 1. Applicant's election with traverse of Figure 1 (claims 1, 2, 5 and 6) in the reply filed on 8/23/04 is acknowledged. The traversal is on the ground(s) that no serious burden exists in searching all the species. This is not found persuasive because the species are distinct.
 - The requirement is still deemed proper and is therefore made FINAL.
 - Furthermore Claims 2 and 5 do not relate to the elected species (Figure 1).
 Therefore, Claims 2 and 5 were withdrawn and not examined.

Specification

2. The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States
- 4. Claims 1 and 6 are rejected under 35 U.S.C. 102(b) as being anticipated by Ohta et al. (5559374).

Ohta (Figures 2-14) shows a bus bar comprising an aluminum-based 1 formed into desired circuit configuration to form a plate-like circuit body and an L-shaped terminal piece 4 made from copper-based metal plate wherein a horizontal portion of

the L-shaped terminal piece is secured to an end of the circuit body by welding such that a vertical portion 4A of the terminal piece projects from the circuit body forming a tab.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Yamakawa et al. (20040043645), Murakoshi et al. (20020076955), Onizuka et a. (6264510), Berthoux et al. (3719578) and Fujita et al. (5463251).
